FOR IMMEDIATE RELEASE

EPS SECURITY MOVES INTO NEW OFFICES IN PETOSKEY

Petoskey, Mich., April 29, 2011— West Mich. based Engineered Protection Systems (www.EpsSecurity.com), a leading commercial and residential alarm company, is moving its regional Petoskey staff to a new office located at 2379 Charlevoix Road/US 31 South. The new space is nearly four times larger than the previous office, and offers impressive views of Little Traverse Bay. The new EPS Security office in Petoskey officially opens its doors on Monday.

In addition to the increased space, the new location offers increased visibility in a high-traffic area close to downtown.

“We’ve had offices in Petoskey for more than two decades, but the area along US 31 will provide much better exposure for EPS,” said Kevin Carlson, president of EPS Security. “It will allow us to better serve our current customers in Petoskey, Bay Harbor, Harbor Springs and Charlevoix, and the extra space better prepares us for future growth in an area of the state that is thriving.”

EPS Security was founded in Grand Rapids in 1955. Today, the Company ranks among the top-30 security providers in the United States with more than 16,000 properties in the region for which it provides fire, burglary, card access, video surveillance and other monitoring and security services.
