FOR IMMEDIATE RELEASE

EPS SECURITY ENGINEER RECEIVES TOP INDUSTRY CERTIFICATION

GRAND RAPIDS, Mich., Sept. 28, 2011— EPS Security, West Michigan’s largest security and life safety systems provider, is proud to announce Steve Sabatino, EPS Security engineer, received his Level 4 Certification from the National Institute for Certification in Engineering Technologies (NICET). This level of certification represents the highest qualification within the fire alarm profession.

Sabatino has more than 20 years of experience in the fire alarm profession, the last four of which have been with EPS Security. During the past several years, he played a leading role in the design and development of some of EPS’s largest and most complex commercial fire alarm systems.

“Level 4 is the pinnacle of the fire alarm profession,” said Kevin Carlson, president of EPS Security. “Our customers look at EPS as the top experts in our field, and this certification represents the best third-party endorsement we could ever ask for. Steve is constantly learning and adapting to new technology, and he’s providing great leadership to our entire team of fire safety experts.”

About Engineered Protection Systems (EPS Security)

Grand Rapids, Mich.-based Engineered Protection Systems (EPS Security) is a nationwide leader in security systems services. The Company currently ranks among the top 30 largest security companies in the U.S., and it is one of just seven security firms in the country to operate a central station facility that is UL-listed, FM-approved and certified by the Central Station Alarm Association as “Five Diamond” qualified. EPS provides burglar alarms, fire alarms, card access systems, video surveillance and integrated systems to nearly 17,000 commercial and residential clients in Michigan, Wisconsin, Illinois, Indiana, Ohio and Kentucky.
